Hard track

Going from Echo Point (the most popular lookout in the Blue Mountains) to the Three Sisters (one of Australia's most famous landmarks), this walk is extremely popular with both tourists and locals, and rightly so. Be prepared for great views of Mt Solitary, the Jamison Valley and especially great views of the Three Sisters. You can even cross a bridge to stand in a cave on one of the Sisters. Let us begin by acknowledging the Dharug & Gundungurra people, Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.
