Hard track

This is a pleasant walk, taking you through some of Royal National Parks more diverse ecosystems. From Waterfall Station, the walk heads through the bush and heath, before descending to the rain forest and palms on the banks of the upper Hacking River. A great walk to explore Royal National Park's floral diversity. Let us begin by acknowledging the Dharawal people, Traditional Custodians of the land on which we travel today, and pay our respects to their Elders past and present.
